Item Number 4a

**MTC Resolution 3859**

---

- Subject:** Proposition 1B – Transit Security Population-based Funds Allocation Requests
- Background:** Proposition 1B, approved by California voters in November 2006, includes \$1 billion in the Transit System Safety, Security and Disaster Response Account. Sixty-percent of the funding in this account is directed to eligible recipients of State Transit Assistance funds. Senate Bill 88 directs funds allocated to MTC pursuant to the population-based formula to be suballocated to transit operators within its jurisdiction pursuant to the revenue-based formula. Based on the state's FY 2007-08 Proposition 1B – Transit Security appropriation, roughly \$5.8 million is available to MTC this fiscal year for the population-based program.
- Summary:** Based on submittals from operators, staff recommends requesting allocations for \$5.7 million in the first round of FY 2007-08. Staff will return to this Committee to request allocation submittals for future rounds of bond funding from this category.
- Based on the direction of Senate Bill 88, program guidelines approved by Office of Homeland Security (OHS) and the security expertise available within the sponsoring transit agencies, the projects included as Attachment A are eligible for funding in this bond category. Projects were selected by agency staff and reviewed by OHS staff for eligibility.
- Issues:**
- 1) Staff will continue to encourage project sponsors to request future Proposition 1B – Transit Security funding as soon as those funds become available, to demonstrate the need for transit security investments in the region.
  - 2) Staff is requesting that the Executive Director be given authority to make administrative changes to the allocation requests, as necessary, based on the state's review.
- Recommendation:** Refer Resolution No. 3859 to the Commission for approval.
- Attachment:** MTC Resolution No. 3859
