RE: Mobility and Access Pricing Study

At your May 13 meeting, Elizabeth Bent from the San Francisco County Transportation Authority will return to give a presentation describing their Mobility, Access and Pricing (MAP) Study – a study to determine the feasibility of using a comprehensive congestion-pricing program to improve mobility in San Francisco.

The presentation will include a brief description of a complementary effort focused on congestion management and replacement of Doyle Drive. The Doyle Drive Value Pricing Program is the centerpiece of the San Francisco Bay Area's Urban Partnership program, which could bring as much as \$159M in congestion management improvements to the region.

Attached is a copy of the PowerPoint presentation for the meeting, as well as a copy of their newsletter.
