RE: 2009 Work Plan

Please find attached two workplan documents. One document is a consolidated draft Work Plan, which includes Parts I and II of the previous workplan, a request made by the committee in October. Note that the “Improve transit performance and convenience” topic was moved under the Transportation and Land Use topic, also requested by the committee. New topics suggested by the committee were added as well.

The second document is a matrix format of the draft work plan as proposed by Vice Chair Cathy Jackson. Note that not all information has been filled in – the discussion will begin with input on the format and the type of information to be included in the matrix.
