RE: 2010 STIP Overview and Schedule

Every two years, MTC adopts the Regional Transportation Improvement Program (RTIP) and submits it to the California Transportation Commission for inclusion into the State Transportation Improvement Program (STIP). MTC relies on the Congestion Management Agencies to develop the project list for inclusion into the RTIP.

The 2010 STIP effort has begun. The CTC received an overview of the 2010 STIP Fund Estimate Development at its February meeting. CTC is scheduled to adopt the STIP Fund Estimate Assumptions at the June meeting. CTC is expected to adopt the 2010 STIP Fund Estimate in August. The timeline for adoption may shift; in previous years, the STIP Fund Estimate adoption was delayed due to the state budget not being adopted on time. However, based on current statute, MTC would have to adopt the final RTIP at its November meeting, for submittal to CTC in December 2009.

Based on this schedule, the CMAs release the call for projects process for the 2010 RTIP this summer. MTC plans on presenting draft policies and procedures in the summer for adoption shortly after the adoption of the STIP Fund Estimate. The draft schedule is attached.

Note that MTC expects the CMAs to do a call for projects for “freed” STIP TE capacity resulting from ARRA during the same timeframe as the 2010 STIP call for projects. Note that programming the ARRA/ STIP-TE backfill may be subject to the effort to program new funds in the new Federal Act (see item 4B).

Also attached is a letter from the California Arts Council (CAC), encouraging the use of various local arts councils to work on some aspects of TE-eligible projects. Please share this with your project sponsors.

Re: The American Recovery and Reinvestment Act (ARRA) Department of  
 Transportation (Caltrans) Enhancement Funds

Dear Mr. Heminger:

In a recent conversation with Director of Caltrans Will Kempton, he explained that the stimulus' transportation "enhancement" funds have been designated to 44 regional transportation agencies, including yours. He encouraged me, on behalf of the California Arts Council (CAC), a state agency, to contact all MPO's and RTPA's to bring attention to local arts agencies that might partner with you to fulfill ARRA enhancement efforts and provide needed jobs.

Many local arts councils manage public arts programs working with artists to provide murals, sculpture, landscape art and other types of projects that complement transportation projects. They are skilled at contracts and facilitation with artists and are a community resource. I am also sending your contact information to the local arts agency, hoping that a dialogue will follow.

If you have questions about what I am suggesting, please call me at (916) 322-6335 or email [mjohnson@cac.ca.gov](mailto:mjohnson@cac.ca.gov). Thank you for your consideration.

Sincerely,

  
 Muriel Johnson  
 Director
