RE: Preliminary Draft Committed Funds and Projects Policy for Regional Transportation Plan/Sustainable Communities Strategy

Purpose & Background

For the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), MTC staff is proposing to update the Policy on prior commitments approved by the MTC Planning Committee for the Transportation 2035 Plan.

The determination of which projects and funding sources are deemed “committed” affects the amount of transportation revenues that will be subject to discretionary action by the Commission.

The Policy to be developed for the RTP/SCS will:

1. Determine which projects proposed for inclusion in the RTP/SCS are not subject to discretionary action by the Commission because the project is fully funded and is too far along in the project development process to consider withdrawing support. While local funds for a project will remain with that project, a fully locally funded project that is not far along in the project development process may be subject to project performance assessment by the Commission.
2. Determine which fund sources are subject to discretionary action by the Commission for priority projects and programs.

Determining prior commitments for projects and fund sources is a necessary first step in the discussion of how to spend the revenues projected to be available to the region over the 25-year life of the RTP/SCS. This determination includes the following three steps: (1) prepare the 25-year revenue assumptions and forecasts, (2) determine what funds and what projects are committed and will be included in the RTP/SCS without further evaluation, and (3) determine the revenue balance that is subject to MTC discretion by subtracting those committed funds and committed projects from the projected revenues.

Preliminary Proposal

MTC staff has prepared a preliminary Draft Policy on prior commitments (see **Attachment A**) for discussion and input from the Bay Area Partnership, SCS Regional Advisory Working Group, MTC Policy Advisory Council, and stakeholders. The key issues addressed in the draft policy are outlined below.

Threshold Criteria for Determining Committed Funds or Projects

As summarized in Table 1, staff proposes a more limited set of criteria for what is considered committed and to define a smaller subset of funds and projects as committed than in past plans, thus “opening up” more funds for discretionary action.

Table 1: Comparison of Prior Commitment Criteria Transportation 2035 Plan versus Proposed RTP/SCS

T2035 Criteria	Proposed Criteria for RTP/SCS
Committed Funding Sources	
<i>Locally generated or locally subvented funds are committed.</i>	No change
<i>Transportation funds for operations and maintenance as programmed in the current Transportation Improvement Program, specified by law, or defined by MTC policy are committed.</i>	See Attachment A , Table 3 for a list of committed and discretionary fund sources
Committed Projects	
<i>Committed projects are not subject to a project performance assessment.</i>	
<i>Projects or project elements fully funded in the current TIP are committed, except Cycle 1 Regional Program funding commitments</i>	Project is under construction with full capital funding by December 31, 2011
<i>Resolution 3434</i>	Project under construction with full capital and operating funding identified by December 31, 2011 would be considered committed
<i>Ongoing regional operations programs are committed</i>	Regional programs with existing executed contracts through the contract period only

1. Definition of “Committed” vs. “Discretionary” Funding. Are there any proposed changes to these designations since Transportation 2035?

As proposed in this draft policy, a “committed fund” is a fund source that is directed to a specific entity or purpose as mandated by statute or by the administering agency. For committed funds, MTC has no discretion on where these funds go or how they are spent. For discretionary funds, the Commission has either complete discretion on how and where funds are spent, or can develop policies/conditions on the expenditure of funds.

The preliminary proposed designations for committed and discretionary funding are included in **Attachment A, Table 3**. Staff is proposing to define more funding sources as “discretionary” funds compared to Transportation 2035. For example, while some funds have historically been committed to certain purposes, the Commission may exercise its authority to condition these funds on adherence to regional policies to be developed in RTP/SCS process. In addition, as discussed in the Financial Forecast Assumption memo, there are new sources of discretionary funding that are proposed for the RTP/SCS.

Definition of “Committed Projects”

Staff proposes to require a project to be advanced in project development (e.g., beginning construction by December 31, 2011) in order to be designated as committed.

2. Projects Identified as Exempt By Senate Bill 375

SB 375 provides that projects programmed for funding on or before December 31, 2011, are not required to be subject to the provisions required in the SCS or Alternative Planning Strategy (APS) if they are:

- Contained in the 2007 or 2009 Federal Statewide Transportation Improvement Program, or
- Funded pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2, or
- Were specifically listed in a ballot measure prior to December 31, 2008, approving a sales tax increase for transportation projects.

MTC staff proposes that a project that meets these criteria may still be subject to performance assessment for inclusion in the RTP/SCS and be subject to Commission discretion based on financial constraint, policy or other considerations. This view is consistent with the California Transportation Commission’s guidance in the approved *2010 Regional Transportation Plan Guidelines*.

Draft Committed Policy for the
Regional Transportation Plan/Sustainable Communities Strategy

1. Prior Commitment Criteria – Project

The following criteria are proposed to determine Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) prior commitments. Projects that do not meet these criteria will be subject to the project performance assessment.

- A transportation project/program that meets any one of the following criteria would be deemed “committed”:
 1. Project that is under construction with full capital funding by December 31, 2011
 2. Resolution 3434 Program – Project, or project segment, that is under construction with full capital and operating funding identified by December 31, 2011 (see **Table 1**). This list is subject to change based on construction activity over the next year.
 3. Regional Programs – Regional programs with executed contracts (see **Table 2a and 2b**) through contract period only

2. Prior Commitment – Funding Sources

Funding for the RTP/SCS comes from a number of sources. Each funding source has specific purposes and restrictions. The federal, state, regional and local funds included in the draft RTP/SCS revenue forecasts as either committed or discretionary funds are defined below and listed in Table 3.

- Committed funding is directed to a specific entity or for a specific purpose as mandated by statute or by the administering agency.
- Discretionary funding is defined as:
 - Subject to MTC programming decisions.
 - Subject to compliance with Commission allocation conditions.

The following criteria are proposed to determine RTP/SCS prior commitments:

- A transportation fund that meets any one of the following criteria would be deemed “committed”:
 1. Locally generated and locally subvented funds stipulated by statute
 2. Fund source that is directed to a specific entity or purpose as mandated by statute

3. Projects Exempt from Senate Bill 375

SB 375 provides that projects programmed for funding on or before December 31, 2011, are not required to be subject to the provisions required in the SCS or Alternative Planning Strategy (APS) if they are:

- Contained in the 2007 or 2009 Federal Statewide Transportation Improvement Program, or
- Funded pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2, or
- Were specifically listed in a ballot measure prior to December 31, 2008, approving a sales tax increase for transportation projects.

A project's status as exempt under these SB 375 provisions does not preclude MTC from evaluating it for inclusion in the RTP/SCS per the project performance assessment process and at Commission discretion based on financial constraint, policy or other considerations.
