W. I.

RE: Revised PM<sub>2.5</sub> Project Conformity Interagency Consultation

Below is a list of project sponsors who completed the initial steps of the project level conformity process and now seek interagency consultation from the Air Quality Conformity Task Force to determine whether their projects are deemed a Project of Air Quality Concern.

| No. | Project Sponsor | Project Title                           |
|-----|-----------------|---|
| 1   | San Pablo       | I-80/San Pablo Dam Rd I/C Modifications |
| 2   | Caltrans        | US 101 Auxiliary Lanes                  |

**Attachment A** includes descriptions of the above projects and their corresponding project assessment form.

Additionally, MTC requests the review and concurrence from the Air Quality Conformity Task Force on a set of projects that project sponsors have identified as exempt and likely not to be a POAQC. **Attachment B** lists these exempt projects.
