Memorandum

TO: Air Quality Conformity Task Force

DATE: April 26, 2012

FR: Srikalyani Srinivasan

W. I.

RE: Interagency Consultation for TIP Revision 11-25

The purpose of this memo is to address any conformity issues as MTC proposes changes to the 2011 Transportation Improvement Program (TIP) via amendment 11-25. The amendment will be approved by the Commission at its meeting on May 23, 2012.

Proposed 2011 Transportation Improvement Program (TIP) Amendment

The 2011 TIP is financially constrained and covers the four fiscal years FY 2010-11 through FY 2013-2014. MTC adopted the 2011 TIP on October 27, 2010 (Resolution No. 3975). In addition, MTC made a conformity determination that finds the 2011 TIP and Transportation 2035 Plan conform to applicable federal air quality standards and implementation plans (Resolution No. 3976). Both the 2011 TIP and conformity determination were approved on December 14, 2010.

Staff is in the process of working with project sponsors to change projects in the 2011 TIP. The only changes that will be processed are those whose total project cost (including those project costs that programmed outside the TIP period), scope, and the analysis year for the project (as was modeled in the latest conformity analysis) are consistent with the T2035 Plan.

Staff will provide the Conformity Task Force a list of the changes at its April 26, 2012 meeting.
