

Attachment B - Exempt Projects - PM2.5 Project Level Conformity

County	TIP ID	Sponsor	Project Name	Project Description	Expanded Description	Project Type under 40 CFR 93.126
San Francisco	SF-110044	Bay Area Rapid Transit District (BART)	Regional Real-Time Transit Information at BART	In downtown Oakland and downtown San Francisco: at six key intermodal BART stations: add additional real time transit information displays	This project will add up to 48 additional real-time transit displays at the downtown Oakland and San Francisco BART stations, specifically at 12th Street and 19th Street BART stations in Oakland, and at Embarcadero, Montgomery, Powell and Civic Center BART stations in San Francisco. Together these six stations serve nearly 145,000 daily BART riders, many of whom transfer to or from a connecting bus, light-rail, streetcar or ferry service. Because these intermodal stations are so large and have multiple entrances/exits, it is necessary to add monitors at strategic locations to provide critical and timely information. The signs will display real-time transit departures for connecting transit services via the 511 real-time transit interface, which organizes real-time information across different transit agencies into a single, consistent format.	Other - Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities)
