MTC Resolution No. 4125, Revised

---

**Subject:** Revisions to the FY2013-14 Nonurbanized Area Formula (Section 5311) Program of Projects

**Background:** The Federal Transit Administration (FTA) Non-urbanized Area Formula Program (Section 5311) makes funding available to each state for public transportation projects in non-urbanized areas.

MTC annually develops a regional Program of Projects for submittal to Caltrans. Caltrans then submits a statewide program to FTA for approval. Per Commission policy, MTC's objective is to program capital and operating funds to maintain needed transit services in the rural areas of the MTC region.

### **Funding Availability**

Caltrans recently released the FY2013-14 Section 5311 Non-urbanized Area Call for Projects. MTC has approximately \$1.9 million available for programming in FY2013-14.

### **Programming Process**

In December 2013, MTC developed a two-year (FY2013-14 and FY2014-15) program of projects in accordance with MTC Resolution No. 4036, which states that the region's Section 5311 funds will be distributed to transit operators using a formula based on non-urbanized area population and non-urbanized area route miles.

Consistent with MTC's Section 5311 Funding Objectives and Criteria, staff is now proposing to adjust the FY2013-14 program based on the available revenues. Caltrans recently announced the actual amount of FY2013-14 funds available (\$1.9 million), which exceeds the estimate used to develop the program (\$1.86 million). The primary reason for the increase is that Caltrans added statewide savings from prior years to the 2014 apportionment.

### **Recommended Program of Projects**

MTC staff conferred with the project sponsors to determine what projects to apply the additional FY2013-14 funds to, within the formula distribution. Most operators are receiving FY2013-14 funds for operating support, and elected to apply the additional funds to the same operating projects.
