MTC Resolution No. 4035, Revised

Subject: Revisions to Cycle 2 One Bay Area Grant (OBAG) Program – Project Selections and Programming Revisions

Background: The Cycle 2 OneBayArea Grant (OBAG) Program adopted by the Commission in May 2012 establishes commitments and policies for investing roughly \$800 million in Surface Transportation Program (STP), Congestion Mitigation and Air Quality Improvement (CMAQ) and Regional Transportation Improvement Program (RTIP) funds for regional and local programs through FY2016. Under this program, the congestion management agencies (CMAs) administer the county OBAG shares (\$320 million) including a competitive project selection process within their respective counties. The CMAs also issue solicitations and award grants for two other Cycle 2 programs: the Regional Safe Routes to School (SRTS) Program and the Priority Conservation Area Program (North Bay only). As projects are selected, MTC staff confirms funding eligibility, recommends program approval and revisions to include projects in the federal Transportation Improvement Program (TIP), and provides periodic follow-up reports to the Commission. In addition, staff recommends revisions for the regional programs managed by MTC.

This month, staff recommends the following changes to the OBAG Program:

- Addition of \$149,000 to the Lake Merritt BART Bikeways Project (Oakland)
- Further definition of one of Suisun City’s projects involving a project name change (from Suisun City SRTS Infrastructure Improvements to Driftwood Drive Path)

Lastly, staff recommends that the obligation deadline for Cycle 2/OBAG funds be extended from March 31, 2016 to January 31, 2017. This will provide MTC and project sponsors with additional flexibility to better manage the program funds.

Issues: None

Recommendation: Refer MTC Resolution No. 4035, Revised to the Commission for approval.

programs, magnetic levitation transportation technology deployment program, and experimental pilot projects. For more detailed guidance see the *CMAQ Program Guidance* (FHWA, November 2008).

In the event that the next surface transportation authorization materially alters these programs, MTC staff will work with project sponsors to match projects with appropriate federal fund programs. MTC reserves the right to assign specific fund sources based on availability and eligibility requirements.

- ▶ **RTP Consistency:** Projects included in the Cycle 2 Program must be consistent with the adopted Regional Transportation Plan (RTP), according to federal planning regulations. Each project included in the Cycle 2 Program must identify its relationship with meeting the goals and objectives of the RTP, and where applicable, the RTP ID number or reference.

- ▶ **Complete Streets (MTC Routine Accommodations of Pedestrians and Bicyclists) Policy:** Federal, state and regional policies and directives emphasize the accommodation of bicyclists, pedestrians, and persons with disabilities when designing transportation facilities. MTC's Complete Streets policy (Resolution No. 3765) created a checklist that is intended for use on projects to ensure that the accommodation of non-motorized travelers are considered at the earliest conception or design phase. The county Congestion Management Agencies (CMAs) ensure that project sponsors complete the checklist before projects are considered by the county for funds and submitted to MTC. CMAs are required to make completed checklists available to their Bicycle and Pedestrian Advisory Committee (BPAC) for review prior to CMAs' project selection actions for Cycle 2.

Other state policies include, Caltrans Complete Streets Policy Deputy Directive 64 R1 which stipulates: pedestrians, bicyclists and persons with disabilities must be considered in all programming, planning, maintenance, construction, operations, and project development activities and products and SB 1358 California Complete Streets Act, which requires local agency general plan circulation elements to address all travel modes.

- ▶ **Project Delivery and Monitoring.** Cycle 2 funding is available in the following four federal fiscal years: FY 2012-13, 2013-14, 2014-15, and FY 2015-16. Funds may be programmed in any one of these years, conditioned upon the availability of federal apportionment and obligation authority (OA). This will be determined through the development of an annual obligation plan, which is developed in coordination with the Partnership and project sponsors. However, funds MUST be obligated in the fiscal year programmed in the TIP, with all Cycle 2 funds to be obligated no later than **March 31, 2016 January 31, 2017**. Specifically, the funds must be obligated by FHWA or transferred to Federal Transit Administration (FTA) within the federal fiscal year that the funds are programmed in the TIP.

All Cycle 2 funding is subject to the Regional Project Funding Delivery Policy and any subsequent revisions (MTC Resolution No. 3606 at http://www.mtc.ca.gov/funding/delivery/MTC_Res_3606.pdf) . Obligation deadlines, project substitutions and redirection of project savings will continue to be governed by

- Complete streets elements that were funded;
 - Adherence to the performance and accountability requirements;
 - Amount of funding to various jurisdictions and how this related to the distribution formula that includes population, RHNA housing allocations and housing production, as well as low-income housing factors.
 - Public participation process.
- The CMAs will also be required to present their PDA Growth Strategy to the Joint MTC Planning / ABAG Administrative Committee.
- **Project Selection:** County congestion management agencies or substitute agencies are given the responsibility to develop a project selection process along with evaluation criteria, issue a call for projects, conduct outreach, and select projects
- **Public Involvement:** The decision making authority to select projects for federal funding accompanies responsibilities to ensure that the process complies with federal statutes and regulations. In order to ensure that the CMA process for administering OBAG is in compliance, CMAs are required to lead a public outreach process as directed by Appendix A-5.
 - **Unified Call for Projects:** CMAs are requested to issue one unified call for projects for their One Bay Area grant, with a final project list due to MTC by June 30, 2013. CMA staff need to ensure that all projects are submitted using the Fund Management System (FMS) no later than July 30, 2013. The goal of this process is to reduce staff time, coordinate all programs to respond to larger multi-modal projects, and provide project sponsors the maximum time to deliver projects.
 - **Project Programming Targets and Delivery Deadlines:** CMAs must program their block grant funds over the four-year period of Cycle 2 (FY 2012-13 through FY 2015-16). The expectation is that the CMA planning activities \ project would use capacity of the first year to provide more time for delivery as contrasted to other programs which tend to have more complex environmental and design challenges, but this is not a requirement. The funding is subject to the provisions of the Regional Project Delivery Policy (MTC Resolution 3606 or its successor) including the Request for Authorization (RFA) submittal deadline and federal authorization/obligation deadline. Furthermore the following funding deadlines apply for each county, with earlier delivery strongly encouraged:
 - Half of the OBAG funds, including all funds programmed for the PE phase, must be obligated (federal authorization/E-76) by March 31, 2015.
 - All remaining OBAG funds must be obligated by ~~March 31, 2016~~ January 31, 2017.

CYCLE 2 COUNTY ONE BAY AREA GRANT PROJECT GUIDANCE

The categories below comprise the Cycle 2 County One Bay Area Grant Program, administered by the county congestion management agencies. Project selection should ensure that all of the eligibility requirements below are met. MTC staff will work with CMAs and project sponsors to
