MTC Resolution No. 4035, Revised

Subject: Revisions to the Cycle 2 One Bay Area Grant (OBAG) Program – Project Selections and Programming Revisions

Background: The Cycle 2 OneBayArea Grant (OBAG) Program adopted by the Commission in May 2012 establishes commitments and policies for investing roughly \$800 million in Surface Transportation Program (STP), Congestion Mitigation and Air Quality Improvement (CMAQ) and Regional Transportation Improvement Program (RTIP) funds for regional and local programs through FY2016. Under this program, the congestion management agencies (CMAs) administer the county OBAG shares (\$320 million) including a competitive project selection process within their respective counties. The CMAs also issue solicitations and award grants for two other Cycle 2 programs: the Regional Safe Routes to School (SRTS) Program and the Priority Conservation Area Program (North Bay only). As projects are selected, MTC staff confirms funding eligibility, recommends program approval and revisions to include projects in the federal Transportation Improvement Program (TIP), and provides periodic follow-up reports to the Commission. In addition, staff recommends revisions for the regional programs managed by MTC.

This month, staff recommends the following changes to the Priority Conservation Area (PCA) Programs and Freeway Performance Initiatives (FPI) Program:

- 1. Regional PCA Program** Provide an additional \$500,000 of federal funds to the Breuner Marsh Restoration Project bringing the total federal grant amount to \$1,000,000. The State Coastal Conservancy (SCC) recommended \$500,000 of federal funds to the San Mateo County Parks District to acquire the Loma Mar property. As land acquisition for park purposes is not an eligible use of federal funds, a grant condition was that the county exchange the federal grant funds with local funds. Not being able to achieve this, the County withdrew their PCA grant application last month. In response, the SCC agreed to provide state bond funds for the project, by taking the state bond funds off the Breuner Marsh Project. In turn, the Breuner Marsh Project will use the federal funding that was originally intended for the Loma Mar Acquisition. This does not involve any changes to the PCA Program grant amounts to projects, as originally recommended by the SCC. See Attachment 1 to this memo for the final program and the proposed fund source change. This change was agreed to by the SCC Board on May 29, 2014.
- 2. North Bay PCA Program** The County of Napa has identified a federally eligible transportation project (Silverado Trail Phase G Overlay) for exchange purposes in order to facilitate the PCA grant to

the Soscol Headwaters Preserve Acquisition which is federally ineligible. The Silverado trail project will receive \$1.1 million in federal Cycle 2 STP funds and the Soscol Headwaters Preserve project will receive an equal amount of county general funds.

- 3. Freeway Performance Initiatives Program** Redirect \$2.5 million from Ramp Metering and Traffic Operations System (TOS) elements to the Program for Arterial System Synchronization (PASS) within the Freeway Performance Initiatives (FPI) Program. This funding will be used to implement and explore the benefits of low-cost advanced technologies that can improve arterial operations across all modes. Technologies include adaptive signal control systems, transit signal priority, real-time traffic monitoring, queue-jump lanes, and other innovative operational strategies for the implementation of adaptive signals.
