MTC Resolution No. 3914, Revised

Subject: Programming and allocation of \$500,000 in AB 1171 Bridge Toll funds to BART for the eBART project.

Background: The eBART Project is a 10 mile rail extension connecting Pittsburg and Antioch to the BART system via the Pittsburg/Bay Point station. The total cost of the eBART Project is \$525 million, including project reserves/contingency and the Pittsburg Civic Center Station. The project is funded through a combination of bridge tolls, Contra Costa Measure J sales tax, State funds, and developer fees.

Construction on the project is progressing. The transfer platform/guideway and maintenance facility/parking lot contracts are nearing substantial completion. The rail procurement contract is ongoing. Additionally, the contracts for eBART vehicles and for Trackwork, System, and Facility Finishes were awarded earlier this year, and notices to proceed have been issued.

Staff now recommends an allocation of \$500,000 in AB 1171 Bridge Toll funds for construction management and design services during construction as requested by BART. In January 2013, the Commission approved \$500,000 for the design of the Railroad Avenue (now Pittsburg Civic Center) eBART station as an additional commitment beyond the \$263 million in regional bridge toll funds already committed to the eBART project. For administrative reasons, the allocation came from RM2 funding, but \$500,000 in AB 1171 funds was set aside for future project needs.

Issues: This allocation is conditioned upon the approval of local support resolutions by the Boards of BART and the Contra Costa Transportation Authority (CCTA).

Recommendation: Refer MTC Resolution No. 3914, Revised to the Commission for approval.
