Memorandum

TO: Air Quality Conformity Task Force

DATE: February 26, 2015

FR: Adam Crenshaw

W. I.

RE: Consultation on the Conformity Status of Car Sharing Programs and Projects

At its January meeting the Task Force discussed the air quality exemption status of a number of car sharing expansion projects that were presented as part of the "Confirm Projects Are Exempt from PM_{2.5} Conformity" item. The task force determined that these projects could not be classified under any of the project categories available under 40 CFR §93.126 and, as such, were not exempt from air quality conformity analysis. However, given the small scale of the projects, the Task Force also indicated that the projects were likely not projects of air quality concern for project-level conformity and were not regionally significant for regional conformity.

The purpose of this item is to request the Task Force's concurrence that the projects included in Attachment A are not projects of air quality concern for project-level conformity and were not regionally significant for regional conformity.
