Alameda	ALA150007	Alameda	Cross Alameda Trail (includes SRTS component)	City of Alameda: between Webster St and Sherman St: construct a new trail with an on-street portion.	City of Alameda: between Webster St and Sherman St: The Cross Alameda Trail is a bicycle and pedestrian trail that runs from Sherman Street to Webster Street as an off-street Class I trail through the Jean Sweeney Open Space Park (3,600 feet) and a class III bikeway facility along Atlantic Avenue between Constitution Way and Webster Street (425 feet) to provide continuity to the bikeway system. The off-street section includes an 8-10-foot wide asphalt concrete bicycle path, 5-6-foot wide asphalt concrete walkway, 4-5-foot decomposed granite jogging path and 2-3 foot asphalt concrete shoulders on each side. The project includes pedestrian level lighting (3-4 ft. foundation depth), benches, and trash & recycle bins. The design will also incorporate bio swales, tree removal, tree planting, and fence removal. The bike facility will include new APS pedestrian signal push-buttons at Atlantic Avenue/Constitution Way. Portion of this project also includes a SRTS non-infrastructure component for education and outreach to school, pedestrians, and bicycling community.	EXEMPT (40 CFR 93.126) - Bicycle and pedestrian facilities
Santa Clara	SCL150014	VTA	1-280/Winchester Study	San Jose: I-280/Winchester Interchange: Conduct environmental studies of improvements to the I-280/Winchester Interchange Ramp	San Jose: I-280/Winchester Interchange: In response to continued operational deficiencies along I-280 in San Jose, the project will produce an environmental study of the deficiencies and proposed alternatives to further improve operations and reduce congestion on Interstate 280 in the vicinity of the I-280/Winchester Interchange Ramp.	EXEMPT (40 CFR 93.126) - Planning and Technical Studies

San Francisco	SF-150009	San Francisco	San Francisco Citywide Bicycle Wayfinding	San Francisco: Citywide: Implement an effective bicycle wayfinding signage system throughout San Francisco. This system will increase ridership by improving both the comfort of riding and the ability to navigate the bicycle network.	San Francisco: Citywide: The project objectives are to: 1) Design and implement a cohesive and consistent bicycle wayfinding system and program for the City and County of San Francisco; 2) Provide guidance to the deployment of a network of signs that will allow bicyclists of all abilities to make real-time decisions about route choice; and 3) Integrate information about bicycling with the City's existing and planned transportation system to facilitate a multi-modal network. A total of approximately 1,200 sign assemblies will be placed on the existing bicycle network using the recommended spacing and density from the Bicycling Wayfinding Planning Study.	EXEMPT (40 CFR 93.126) - Bicycle and pedestrian facilities
San Francisco	SF-150012	SFCTA	San Francisco Travel Smart Rewards Pilot Program	In San Francisco: Undertake a pilot program to mitigate congestion on BART by incentivizing riders to shift travel times	In San Francisco: Undertake a pilot program to mitigate congestion on BART by incentivizing riders to shift their travel to the shoulders of the peak period or other stations and routes. Tasks include developing evaluation, marketing, and incentives plan; software development; employer engagement and program launch; and evaluation.	EXEMPT (40 CFR 93.126) - Grants for training and research programs
Solano	SOL090033	SolTrans	SolTrans: Bus Maintenance Facility Renovation	SolTrans: Bus Maintenance Facility Renovation and Construction of Compressed Natural Gas Facility	The Bus operations and maintenance facility were built in 1988 and operations has grown substantially since. This renovation would create a more effective environment. Construction of CNG fueling facility will provide infrastructure needed for SolTrans to replace the diesel commuter fleet with CNG buses.	EXEMPT (40 CFR 93.126) - Reconstruction or renovation of transit buildings and structures (e.g., rail or bus buildings, storage and maintenance facilities, stations, terminals, and ancillary structures)
