RE: Transportation 2035 Vision Scenario Performance Assessment: Review Preliminary Results

The MTC staff report on this item will address two topics:

1. An update on revisions to the Vision performance targets, as described in the attached September 7 memo to the MTC Planning Committee.
2. Preliminary results from the Vision performance assessment. MTC staff will present some early analysis results at your September 26 meeting. We hope to be able to share the results of the three investment scenarios and land use and pricing sensitivity tests with respect to the congestion and environment targets.
